CIRCULAR LETTER TO ALL BRITISH COLUMBIA LAND SURVEYORS

RE: Change in Datum of Elevations in the lower Fraser Valley

Recent re-levelling and re-adjustment of the geodetic bench marks by Geodetic Survey of Canada in the lower Fraser Valley has resulted in some changes in their published elevations.

The Surveys and Mapping Branch is presently re-adjusting all the Integrated Survey monuments to these new elevations and publishing new elevation listings.

Land Surveyors working in Integrated Survey Areas in the lower Fraser Valley should check with the local corporate authority to make sure they are using the same elevations as the local authorities.

Yours truly,

R. W. Thorpe,
Surveyor General.
