Valid and Retired Versions of Electronic Forms

The Director of Land Titles (Director) designates electronic forms that may be submitted to the land title office through the LTSA's electronic filing system and publishes the forms at https://ltsa.ca/practice-information/land-title-forms. The Director publishes new versions of these electronic forms and retires older versions as required. This document provides a list of all valid and retired versions of the electronic forms designated by the Director.

Under requirements established in E-filing Directions published at https://ltsa.ca/sites/default/files/E-filing%20Directions_0.pdf , an electronic form submitted to the land title office must be completed using a valid version of the form. An electronic form submitted using a retired version of the form will not be accepted, except where the form was executed by the transferor or electronically signed by the subscriber prior to that version of the form being retired by the Director.

See E-filing Directions for more information about the directions for electronic forms.
