

## **CIRCULAR LETTER NO. 467**

March 13, 2015

### **TO ALL BRITISH COLUMBIA LAND SURVEYORS**

#### **Re: Integrated Survey Area No. 50, City of Fort St. John, Official Plan and Coordinates**

The coordinate control monument listing for the Fort St. John Integrated Survey Area No. 50 has been updated to include nineteen new coordinate control monuments and has been published in an electronic format under the authority of section 13(5) of the *Land Survey Act*. It is available for viewing or download from the Surveyor General Division section of the LTSA website under [Integrated Survey Area Program](#). This web page displays a table of all Integrated Survey Areas in numerical order. The ISA number provides a link to the respective coordinate control monument listing.

An electronic map of the Fort St. John Integrated Survey Area No. 50 has been published in the [Online Cadastre](#) under the authority of section 13(1) of the *Land Survey Act*. Online Cadastre shows the location and designation of the coordinate control monuments and the boundary of the integrated survey area on layers '**Survey Control**' and '**ISA Layers**' respectively.

A user may also link to the [MASCOT Survey Control Database](#) to obtain control monument sketches and coordinate information. To invoke this function within the Online Cadastre, turn on the Survey Control layer to see the location of all monuments. Activate the 'Point Identify' tool and click on the desired monument location. In the results pane on the left side of the screen the monument should be listed by Tablet Marking and when clicked contains a link directly to the MASCOT website with the GCM number pre-entered.

Legal surveys within the Fort St. John Integrated Survey Area must be integrated according to Part 5 of the General Survey Instruction Rules.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Mike Thomson".

Mike Thomson, BCLS  
Surveyor General of British Columbia
