NOTES: Bearings are referred to the local meridian of monument 5F. Contour elevations are in feet. Contour interval is 100ft. Other elevations shown are in metres and to the tops of monuments. Vertical datum for elevations noted as GPS and contours is Canadian Geodetic Vertical Datum 1928. Other elevations are mean sea level as accepted in 1914. Unless otherwise shown distances are in metres. The name at a monument is that of the latest surveyor to establish, restore, re-establish or remove the monument. Contours, roads and hydrography data was obtained from the Department of Natural Resources Canada. All rights reserved. Township fabric was created from the MATS coordinate file provided by Spatial Data Warehouse Ltd.
